CAASTLC's Resources For Hope

Step Up to Leadership

Step Up to Leadership Program helps low-income people develop leadership skills and turn their civic passions into action. Step Up to Leadership is a 12 week program developed by a partnership with Human Development Corporation, Central Missouri Counties' Human Development Corporation CAASTLC, Inc., University of Missouri Extension and Missouri Association for Community Action. Topics cover the value of grassroots participation, goal setting, understanding non-profit boards, keys to successful collaboration, parliamentary procedures, public speaking and negotiation and conflict resolution. Participants are encouraged to find their passions and upon graduation of the program participants are eligible to seek a \$500 mini-grant to help their passions turn into civic projects. This year there were eleven graduates and two individuals received certificates of participation. Also, two graduates were awarded the mini-grant. One of mini-grants awarded were used implement programs providing assistance to low-income families with the cost of prescription medications. And the other mini-grant was used to assist teenage mothers meet their needs for prenatal care and car seats to take their infants home.

To find out more about our services and how you may utilize them, please contact: Janice McKinney 314-863-0015, ext. # 429 or Janice@caastlc.org

Youth Services Program

Community Presentations

We continued to provide St. Louis County residents with information regarding youth trends and information on identifying gangs and their local community. We held seminars for America Corps and Community Response Groups at our office. We have collaborated with the St. Louis County Police Department for over five years regarding gangs and they have assisted us with data and trends associated with this population. Our on-going effort is to educate everyone about youth and their behavior within the St. Louis region.

Victim Impact Panel

Currently we are third year of assisting with the St. Louis County Victim Impact Panel. This forum is used for those affected by juvenile crime to share their experiences to youth who have committed crimes. This program is getting national attention for its use in determining punishments for certain juvenile offenses. In addition its use is very helpful in stabilizing negative thoughts about juveniles as a hole on those affected by their crime. The Family Court of St. Louis County conducts the sessions within a structured

atmosphere. Currently these sessions are offered four times a year. Training on mediation and counseling are being addressed for further enhancement of this program.

To find out more about our services and how you may utilize them, please contact:
David Barnes 314-863-0015, ext. # 432 or david@caastlc.org

Poverty Simulations

The Community Action Agency of St. Louis County wants to open people's eyes to the human cost of poverty. A Poverty Simulation is a unique opportunity to help the community understand what life is like with a shortage of money and a abundance of stress. There are thousands of people in St. Louis County who face poverty each and every day. Using a simulation kit, participants role-play in the lives of low-income families. In the simulation, 40 to 100 participants assume the roles of up to 26 different families facing poverty. Some families are newly unemployed, senior citizens receiving social security or grandparents raising their grandchildren. The task of the "families" is to provide for basic necessities and shelter during the course of four 15-minute weeks. Family scenarios are given out to groups who participate and each family is given time to seek services and support, obtain financial assistance and simply decide how to spend what little money the family has in order to survive.

To find out more about our services and how you may utilize them, please contact:
Janice McKinney 314-863-0015, ext. # 429 or Janice@caastlc.org

Credit Counseling

We are a HUD Certified credit counseling agency and seek to assist potential homeowners who want to learn to save and budget for a home while developing or correcting credit issues that would prevent them from being able to qualify for a mortgage loan. We work very hard to help our clients qualify for mortgage loans that fit within their budget and are designed to help them maintain and succeed with asset development. We teach individuals about the pitfalls of subprime lending and work with lenders who offer products to assist low-income families succeed in meeting their goals. We also provide credit counseling to help individuals meet all of their needs by teaching them to better manage a budget and develop long term goals of saving and investing.

To find out more about our services and how you may utilize them, please contact:
Janice McKinney 314-863-0015, ext. # 429 or Janice@caastlc.org

Energy Conservation Classes

As everyone knows we are involved in another energy crisis in this country with the cost of natural gas and electricity constantly rising, with no end in sight. What seems to have been forgotten is that we do have options.

It is absolutely necessary that we take a whole house, whole family, and whole community approach to using our energy resources wisely and efficiently. Through our Outreach and Education Program CAASTLC provides the opportunity for clients *and other agencies* to participate in Energy Conservation Classes and Forums. Information received from these classes can result in from 10 to 30 percent savings on the average utility bill.

When used in conjunction with the other forms energy assistance, LIHEAP (EA/ECIP) and Weatherization, Energy Conservation will significantly reduce the need for families to return to CAASTLC for monetary support.

Other support agencies, churches, community assistance groups and businesses can take advantage of these classes and forums by contacting CAASTLC to make arrangements.

To find out more about our services and how you may utilize them, please contact: Rich Krueger 314-863-0015, ext. # 424 or rich@caastlc.org

Employment Development Program

We offer the employer: quality employees referred to your company. Similar to a staffing agency, we assess job seekers and send to you only the most qualified people for your needs. The difference- our service is 100% free. The Employment Development Program at The Community Action Agency of St. Louis County, Inc. is funded through the Community Service Block Grant and is designed to improve the community by securing employment at no cost to businesses or job seekers.

In addition, we offer job retention services. We speak regularly with people that we refer to your company to ensure that they are performing satisfactorily and are dealing appropriately with barriers that may keep them from being successful employees.

We offer the job seeker: career counseling, assistance in resume writing, interview practice, and assistance in seeking employment. A week-long Job Readiness seminar provides participants with the skills and materials they need to conduct a successful job search. For those who have demonstrated their job readiness by attending the full week of classes, arriving on time, and displaying a positive attitude, we offer job placement services. We serve as the participant's partner in finding employment that matches his/her skills and interests.

To find out more about our services and how you may utilize them, please contact Melissa Benton at 314-863-0015, ext. # 431 or Melissa@caastlc.org.
